

# 7241 siacarbon

The harder, the more efficient

**The harder, the more efficient**

7241 siacarbon is ideal for wet and dry machine sanding of hard surfaces: For unique results when keying scratch-resistant lacquers, composite materials, new parts, factory primers and aluminium with a minimum of abrasives consumption.

- ▶ Excellent performance on hard materials
- ▶ Extremely long lifetime thanks to state-of-the-art diamond technology
- ▶ Full-surface dust extraction
- ▶ No dependence on hole system
- ▶ Minimal risk of sanding-through on edges
- ▶ Increased efficiency due to measurable time-saving
- ▶ Consistent removal rates

**Product profile**

Grit type:	Diamond
Grit range:	80; 120; 180; 240; 320; 500
Backing:	Cloth
Coating:	Special process
Bonding:	Resin over resin

**Use****Applications**

- Keying of scratch-resistant coating systems as well as composite materials
- Keying of new components and factory primers
- Keying of aluminium

**Materials**

Cathodic dip primer coat; Epoxy primer coat; Scratchproof lacquer; Aluminium; Plastics; Gelcoat polyester

**Technology**

siafast
