

# 2503 siabite

For guaranteed performance on hard to grind metals

### For guaranteed performance on hard to grind metals

As specialist products for high-alloy steels and other hard to grind metals, 2503 siabite ceramic abrasive belts produce impressive results by offering high stock removal rates and long life and cut every step of the way – from preparation for welding to surface finishing.

- ▶ High removal rate thanks to ceramic grit
- ▶ Active additives with a cooling effect greatly reduce discolouration
- ▶ Long product life
- ▶ Cost reduction thanks to long lifetime

#### Product profile

Grit type:	Ceramic aluminium oxide
Grit range:	40-80
Backing:	X-wt cloth
Coating:	Closed
Bonding:	Resin over resin
Special coating:	Cooling additive

#### Use

#### Applications

- Weld preparation
- Removal of discolouration
- Stock removal
- Surface treatment
- Deburring
- Smoothing and blending of flaws

#### Materials

High-alloy steels

#### Technology

siafast
