

# 2971 siasphere

The high-tech solution for efficiency and quality

### The high-tech solution for efficiency and quality

The special siasphere series allows metal surfaces to be treated more efficiently and cost-effectively. 2971 siasphere has a slightly stiffer, but still flexible backing, and is ideal for softly contoured surfaces and flat applications where higher stock removal rates are required.

- ▶ Long product life
- ▶ High stock removal rates with less pressure
- ▶ Fewer belt changes
- ▶ Shorter treatment time
- ▶ Excellent and consistent finish over a long period of time
- ▶ Fewer individual operations

#### Product profile

Grit type:	Aluminium oxide
Grit range:	240; 320; 400; 600
Backing:	J-wt cloth
Coating:	Structured
Bonding:	Resin over resin
Special coating:	Cooling additive

#### Use

#### Applications

- Surface treatment
- Structuring and final sanding
- Stock removal
- Removal of discolouration

#### Materials

High-alloy steels; Unalloyed / low-alloy steel; Non-ferrous metal

#### Technology

siasphere
