

2971 siasphere

The high-tech solution for efficiency and quality

The high-tech solution for efficiency and quality

The special siasphere series allows metal surfaces to be treated more efficiently and cost-effectively. 2971 siasphere has a slightly stiffer, but still flexible backing, and is ideal for softly contoured surfaces and flat applications where higher stock removal rates are required.

- ▶ Long product life
- ► High stock removal rates with less pressure
- Fewer belt changes
- Shorter treatment time
- Excellent and consistent finish over a long period of time
- Fewer individual operations

Product profile

Grit type: Aluminium oxide
Grit range: 240; 320; 400; 600
Backing: J-wt cloth

Backing: J-wt cloth
Coating: Structured
Bonding: Resin over resin
Special coating: Cooling additive

Use

Applications

- Surface treatment
- Structuring and final sanding
- Stock removal
- Removal of discolouration

Materials

High-alloy steels; Unalloyed / low-alloy steel; Non-ferrous metal

Technology

siasphere
